

Step 1: Create a text file

- 1) Create and save a text file containing all of your download URLs making sure you list one URL per line.

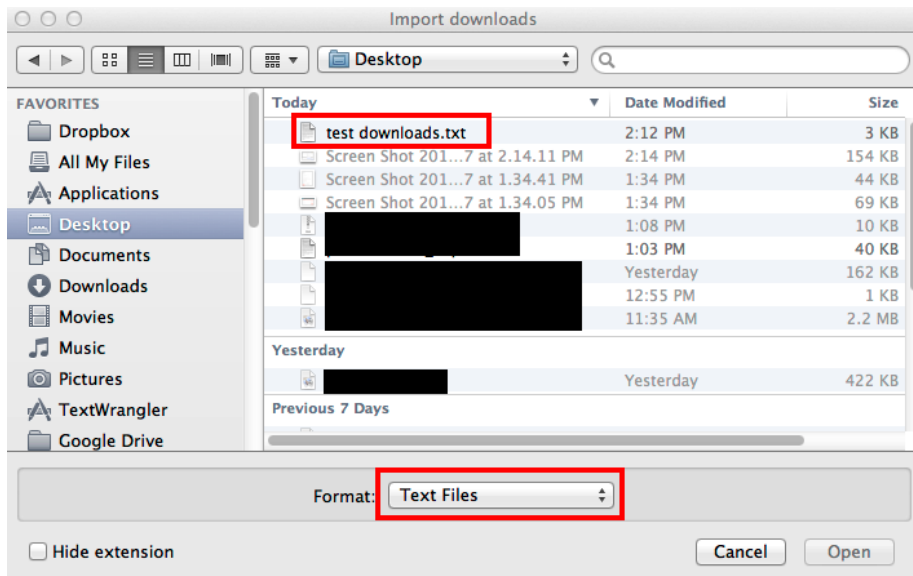

Step 2: Open DownThemAll! in Firefox

- 1) In Firefox open DownThemAll! (Tools > DownThemAll! > Manager)
- 2) Right click the Manager and go to Advanced > Import From File

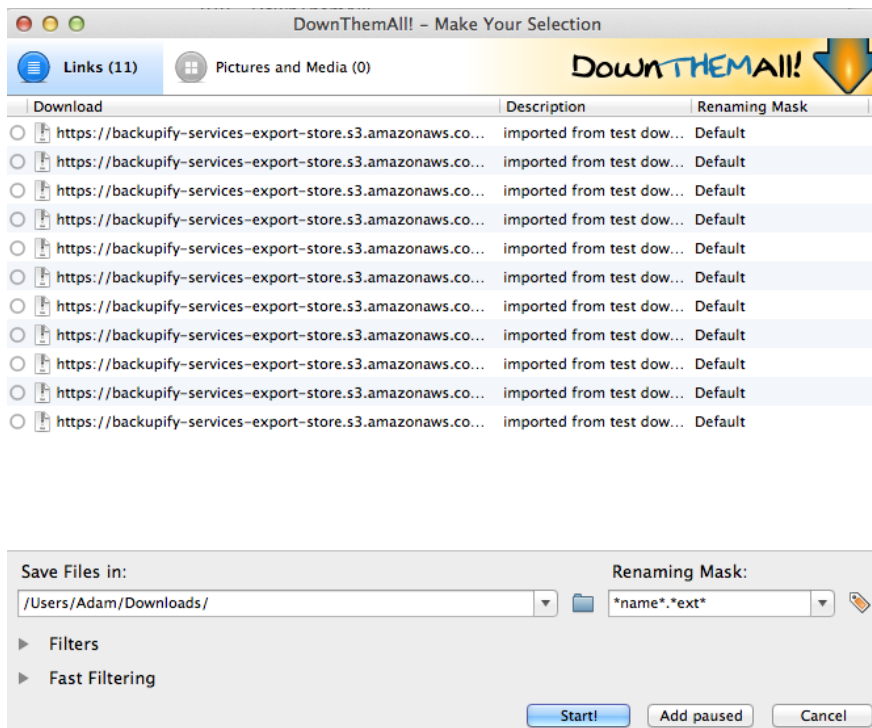

Step 3: Upload your text file

- 1) Select 'Text File' for your format and select the text file you created in Step 1

- 2) On the next page you should see each download link from your txt file.

- 3) Select the ones you want to queue up to download, right click, and Select all. Hit 'Start' and you are good to go!
